

Streetscape Pilot Program In Progress

In response to COVID - 19

On May 18, 2020, the City of Brevard, in partnership with the Heart of Brevard, approved a resolution designed to help downtown businesses re-opening in Phase 2 of Governor Roy Cooper's Executive Order.

The Streetscape Pilot Program includes the West and East Main Street blocks adjacent to Broad Street. Installation of the safety fence program will take place over the next several days and replaces on-street parking. The new program is flexible and may be modified as the project moves forward.

The Streetscape Pilot Program will help restaurants by allowing outside dining and will let retailers expand their footprint outdoors. Safety guidelines and social distancing will remain in place.

Please contact the City Planning Department with any questions at 828-885-5630.

*Thank you for your patience
City of Brevard*
